

Rotablator™ Mastership Program

This training program consists of themed lectures from a team of highly experienced Rotablator operators, as well as case-centered discussions. The lectures provide guidance on applied techniques and troubleshooting, to help operators treat the more difficult cases encountered in actual clinical settings. Case discussions will serve to deepen participants' understanding as well as maximize the clinical essence of this mode of treatment. Actual Rotablaters and anatomical models will be provided for hands-on training.

English Session Date

October 17 (Thurs), 10:30~12:00

Location

Rotablator Expert Room, Floor 1, Hall #3, Kobe International Exhibition Hall

Target audience

Experienced Rotablator doctors as well as those planning to learn Rotablator treatment

Attendance limited to 10 participants.

English Session

Strategy for Calcified Lesion with Rotablator

Chair

Takashi Ashikaga, M.D. (Medical Hospital of Tokyo Medical and Dental University)

Commentator

Hiroyuki Kyono, M.D. (Teikyo University Hospital)

Those interested in participating should provide name, hospital name, contact information and desired course number (please select 1 for the English course) to JapanRotaCollegeCourse@bsci.com. We will contact you to let you know when your application has been received. Enrollment will close once 10 applicants have been accepted, but we will make every attempt to accommodate walk-ins as well. Please contact your local Boston Scientific representative for more information.
