Greetings from the 25th CTO Club

In recent years, the technology of CTO PCI has evolved dramatically. Since the CTO Club is a meeting specialized in CTO PCI, we can share more specialized live demonstrations introducing a detailed knowledge of the CTO devices, and learn techniques, technologies, and strategies in this field.

The program includes CTO live demonstrations, the latest research findings, case presentations, and educational sessions by expert operators from Japan and abroad, and we sincerely hope that an active discussion will be held while sharing your valuable experiences and opinions. We also hope to build a new network through this meeting and to deepen future collaboration in clinical practice and research of CTO PCI.

The 25th CTO Club will be held on June 13th and 14th, 2025. We believe that your participation will be an opportunity for you to spend quality time and contribute to the further development of CTO PCI.

We look forward to seeing you in Nagoya.

Hiroyuki Tanaka, M.D.

The 25th CTO Club Representative Course Director

Language

Official Language: English Simultaneous interpretation is not available.

Live Case Viewer

The 25 th CTO Club participants can view live case data and strategies of operators on "Live Case Viewer" website. https://case.uproses.co.jp/

Food and Beverages

Breakfast is provided in Mornig Session.

Every Luncheon Seminar provides Lunch boxes for attendees.

Drinks and snacks will be provided in Live Theater from 18:00 on June 13.

Coffee service will be offered at the Exhibition.

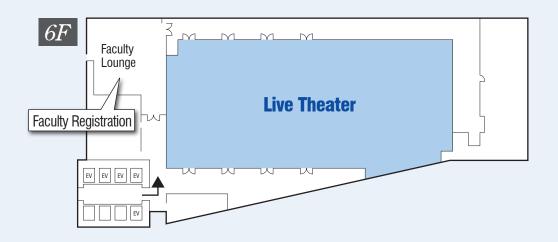

Live Case Transmissions Webcast

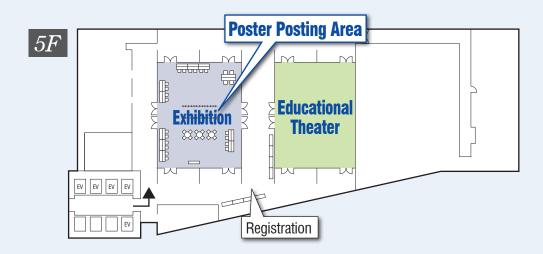

All sessions at Live Theater will be broadcasted live online during the 25th CTO Club.

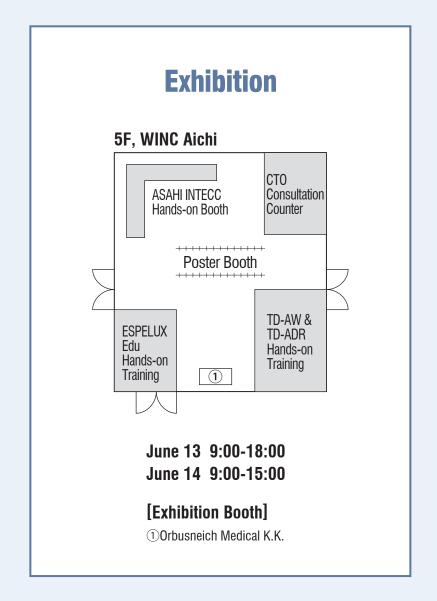

The webcast URL will be available on "My Page" of the registration website (Heartmeetings+) on the day.

There will be no video on-demand broadcast after the 25th CTO Club.

CTO Live Case Transmission: Special Live Session

Join us for an exclusive educational session featuring Dr. Mashayekhi as the operator, where we explore contemporary European interventional strategies and procedural techniques. Through a real case demonstration, you will gain valuable insights into case planning —utilizing ESPELUX Edu as one of the references for pre-procedure measurements- and decision-making, while highlighting Dr. Mashayekhi's approach to CTO-PCI. Whether you are looking to refine your approach or broaden your international perspective, this session provides a unique opportunity to experience global techniques while staying in Japan. Do not miss this opportunity to learn from a European expert.

Operator: Kambis Mashayekhi Campus Bio-Medico Hospital, Italy

International Joint Session: APCTO@CTO Club International Live Demonstration from Liverpool Hospital

As part of our activities, the AP CTO Club has been working to publish and promote CTO guide wire crossing algorithms, safety, and standardization of antegrade wiring (ADAPT wiring). In addition, we have been working on a CTO PCI style that is unique to the Asia-Pacific region, with intentional wire selection, operation, and active use of IVUS in mind. This time, we will once again have an in-depth discussion on the Asia-Pacific CTO PCI style from a global perspective through live broadcasting, and aim to share strategies and techniques. Please join us.

Live Transmission Site: Liverpool Hospital, Australia

Operators: James Xu, Scott Harding

Proctor: Sidney Tsz Ho Lo

Chairs: Jiyan Chen, Paul Hsien-Li Kao, Wataru Nagamatsu, Eugene Brian Wu Commentators: Yu Ho Chan, Rustem Dautov, Arun Kalyanasundaram, Hiromasa Katoh

Feng Yu Kuo, Calvin Leung, Tse-Min Lu, Muenpetch Muenkaew

Bernard Wong, Hyuck Jun Yoon

16:30-17:30

Next-Generation Case Discussion

In many conventional meetings, it is a general format to review and discuss the procedure after it has been completed. However, inexperienced operators may be hesitant to discuss procedures that have already been completed in front of experts. In this session, we will discuss treatment strategies with experts based on preoperative angiograms and CT. The aim is to develop a comprehensive treatment strategy, including perspectives on what to focus on and where to consider the next strategy if a certain strategy does not work. We aim for an interactive and lively discussion in which all participants can speak freely, so please join us and take advantage of this opportunity.

*Please bring angiograms of your preoperative case and if possible, CCTA.

Moderators: Koshi Matsuo, Kenichiro Shimoji

Panelists: Katsuyuki Hasegawa, Taishi Hirai, Takanobu Mitarai, Yusuke Hosokawa Yusuke Tanigaito

Hands-on Sessions

CTO Consultation Counter

Young doctors, in particular, may encounter CTO cases that they do not know how to treat or that they have failed to treat. In the CTO Consultation Counter, experienced CTO Club directors and faculty members will review your case and provide advice and feedback through discussion with you. We are waiting for your application. If there is a slot available, you are also welcome to join for a consultation without an appointment.

Location: CTO Consultation Counter Booth, Exhibition, 5F, WINC Aichi

Language: English / Japanese

Participation Fee: Free (Registration for the 25th CTO Club is required.)

*Please prepare the angiogram of your planned treatment case or your unsuccessful case, along with a slide presentation (Summarized in one PowerPoint slide).

Capacity: 8 (1 person for 1 time slot. First come first served.)

	June 13 (Fri.)	June 14 (Sat.)		
Time	Advisors	Time	Advisors	
10:30-11:30	Yuji Hamazaki Hiromasa Katoh	09:00-10:00	Yuji Oikawa Yoshiaki Ito

ESPELUX Edu Hands-on Training

In recent years, the importance of setting two orthogonal working views (perpendicular views) has been reemphasized in order to improve the accuracy of CTO wiring. ESPELUX Edu is a software to find two views that are perpendicular to the target distal vessel and are orthogonal to each other based on angiograms. In this session, you will learn how to use ESPELUX Edu in real-world clinical practice through expert demonstrations and hands-on training. We look forward to seeing you in this session.

Location: ESPELUX Edu Hands-on Training Booth, Exhibition, 5F, WINC Aichi

Language: English / Japanese

Participation Fee: Free (Registration for the 25th CTO Club is required.) *Please bring your CTO case angiograms (DICOM format) if possible.

Capacity: 15 (5 persons for 1 time slot. First come first served.)

June 13 (Fri.) 13:10-14:10		June 14 (Sat.) 9:00-10:00		June 14 (Sat.) 10:30-11:30

Hands-on Sessions

TD-AW & TD-ADR Hands-on Training

Recently, IVUS-guided CTO wiring using the tip detection method has become a hot topic in Japan and abroad. In this session, you can learn about Tip-detection Antegrade Wiring (TD-AW) and Antegrade Dissection Re-entry (TD-ADR) in detail through lectures by experts, including Dr. Okamura and Dr. Yoshikawa, as well as hands-on training using CTO simulation models. We are waiting for your participation.

Location: TD-AW & TD-ADR Hands-on Training Booth, Exhibition, 5F, WINC Aichi

Language: English / Japanese

Participation Fee: Free (Registration for the 25th CTO Club is required.) *Please bring your CTO case angiograms (DICOM format) if possible.

Capacity: 24 (8 persons for 1 time slot. First come first served.)

Hands-on Booth

ASAHI INTECC Hands-on booth with ETOSS and ESPELUX Edu

We are excited to once again showcase ESPELUX Edu, ASAHI INTECC's first educational software, at our hands-on booth. Visitors will have the opportunity to experience a demonstration and purchase the software on-site.

We also invite you to try ETOSS, ASAHI's original hands-on training tool, designed to demonstrate guidewire manipulation techniques using the "Penetration Plane Method." This method emphasizes the importance of observing the target from two orthogonal views to achieve wire control towards the target.

New this year, we are featuring a "Heart Model" demonstration focused on the Reverse CART technique.

Do not miss this opportunity to engage with ESPELUX Edu, and guide wire and microcatheter manipulation techniques through ETOSS.

Location: ETOSS Booth, Exhibition, 5F, WINC Aichi

Date & Time: June 13 9:00-18:00 June 14 9:00-15:00

*Pre-booking is not required. Please visit ETOSS booth on the day.

Supported by: ASAHI INTECC CO., LTD.
